DETAILED ACTION

Allowable Subject Matter

Claims 27-52 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the specification (especially at pages 1-7), the claimed inventions are meant to be within the situation of the searching agents over a broadcasting medium. All claims recite "agent" and "broadcast" in this context. As noted at pages 6-7, and as confirmed by the examiner's search, the scalability of the prior art was a problem. In the particular context of the other limitations of the claims, the prior art did not teach or suggest the particular features of the broadcasting of the table entries to the agents using such particular use of memory.

Conclusion
